A	Technical sheet / Datos técnicos:																																																																	
	Part number adaptable to / Referencia adaptable a			4640070230																																																														
	Operating pressure / Presión de trabajo			max. 11 bar																																																														
	Permissible medium / Medio de funcionamiento			Air / Aire																																																														
	Operating temperature range / Rango de temperatura			-40 °C to / a +80 °C																																																														
	Weight / Peso			390 gr																																																														
B																																																																		
C

Port / Conexión	Function / Función	Connector / Conector																																																																
1	Supply / Alimentación	Quick connection - Tube 6 mm / Conexión rápida - Tubo 6 mm																																																																
2	Delivery / Salida	Quick connection - Tube 6 mm / Conexión rápida - Tubo 6 mm																																																																
3	Exhaust / Escape	-																																																																
E	Purpose / Propósito: The cabin leveling valve ensures that the height of the cabin is suitable for driving comfort. / La válvula niveladora de cabina se encarga de que la altura de la cabina sea adecuada para asegurar el confort de la conducción. Installation requirements / Requisitos para la instalación: The leveling valve is fastened to the chassis using two screws M8. / La válvula niveladora se sujetará al chasis del camión por medio de dos tornillos M8.
