Technical Sheet / Datos Técnicos:																																																																																	
Part number adaptable to / Referencia adaptable a:				LA 8232																																																																													
Safety valve pressure / Presión válvula de seguridad:				15.5 bar																																																																													
Unloader / Regulador de presión:				Integrated / Integrado																																																																													
Cut-out pressure / Presión de corte:				12.5±0.3 bar																																																																													
Heating / Calentador:				-																																																																													
Permissible Medium / Medio de funcionamiento:				Air / Aire																																																																													
Operating temperature range / Rango de temperatura:				- 40 °C a / to +80 °C																																																																													
Cut-in temperature / Temperatura de cierre:				-																																																																													
Cut-off temperature / Ajuste de la temperatura:				-																																																																													
Weight / Peso:				1959 gr																																																																													
<table border="1"> <thead> <tr> <th>Port / Conexión</th> <th>Function / Función</th> <th>Thread / Rosca</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>From the compressor / Proveniente del compresor</td> <td>M22x1,5</td> </tr> <tr> <td>21</td> <td>To the reservoirs / A los calderines</td> <td>M22x1,5</td> </tr> <tr> <td>22</td> <td>To the regenerated air reservoir / Al calderín de regeneración</td> <td>M12x1,5</td> </tr> <tr> <td>4/23</td> <td>Control port / Puerto de control</td> <td>M12x1,5</td> </tr> <tr> <td>3</td> <td>Exhaust for compressed air / Escape de aire comprimido</td> <td>-</td> </tr> <tr> <td>6</td> <td>Heating / Calentador</td> <td>-</td> </tr> </tbody> </table>								Port / Conexión	Function / Función	Thread / Rosca	1	From the compressor / Proveniente del compresor	M22x1,5	21	To the reservoirs / A los calderines	M22x1,5	22	To the regenerated air reservoir / Al calderín de regeneración	M12x1,5	4/23	Control port / Puerto de control	M12x1,5	3	Exhaust for compressed air / Escape de aire comprimido	-	6	Heating / Calentador	-																																																					
Port / Conexión	Function / Función	Thread / Rosca																																																																															
1	From the compressor / Proveniente del compresor	M22x1,5																																																																															
21	To the reservoirs / A los calderines	M22x1,5																																																																															
22	To the regenerated air reservoir / Al calderín de regeneración	M12x1,5																																																																															
4/23	Control port / Puerto de control	M12x1,5																																																																															
3	Exhaust for compressed air / Escape de aire comprimido	-																																																																															
6	Heating / Calentador	-																																																																															
Purpose / Finalidad: Drying of the compressed air supplied by the compressor. / Secado del aire comprimido procedente del compresor.																																																																																	
Installation / Instalación: Exhaust (3) must look down. / El escape de aire (3) debe estar orientado hacia abajo.
